

Cleaning Chemical Frustrations?

No Time to Do It All?

Here's how *All Fresh*SM by AlSCO works:

- Small quantities of products delivered on a frequent basis to reduce storage needs
- Regular service combined with locking dispensers to reduce inventory shrinkage
- High-quality, portion-controlled dispensers to control usage and costs
- No up-front investment
- Flexible programs to meet your changing needs
- *One & Done*SM service—one contact, one-day resolution, one-time solution

Is your staff struggling to keep up with managing cleaning chemical supplies on top of their normal business activities?

Purchasing jugs of chemical concentrates can make tracking use and ensuring cleanliness a challenge.

The *All Fresh*SM Perfect Mix System can help simplify your program and ensure your employees are safely using the right chemicals for the job.

Ask your AlSCO representative for more information about the Perfect Mix and other AlSCO services.

*All Fresh*SM Perfect Mix System

The Simple Cleaning
Chemical System

All FreshSM Perfect Mix System SIMPLY PERFECT

The *All Fresh* Perfect Mix System is a compact, easy-to-manage, cleaning chemical dilution system that will:

- Ensure that your employees are cleaning and disinfecting surfaces with perfectly diluted solutions
- Give you easy access to manage chemical use with our at-a-glance modular system
- Simplify managing your monthly cleaning expenses through our flat rate program

What do you get with the *All Fresh*SM Perfect Mix System?

- Compact cabinet solution for your chemical dilution and cleaning needs
- Easy-to-follow program that ensures your employees have the right products for what needs to be cleaned
- Commercial-grade cleaners and disinfectants in clear, professionally labeled bottles
- Weekly service to keep inventory at optimum levels

The Perfect Mix—perfect for you!

- Gain additional storage space by putting all your cleaners into one small cabinet with our modular wall system
- No plumbing valves, hoses, machines, or shelving required
- No large minimum orders
